Hi Everyone,

The cat's out of the bag now! Although I meant for this to get through to Angela for distribution through her and fumbled through the send, the ask is still pressing and requires attention.

Best,  
Peter

Hi Everyone!

OP has issued its data call for our annual Regulatory PLAN and the Fall update for the Regulatory AGENDA (attached). OP's instructions are attached, but note that the deadlines presented therein are due dates for AA-approved submissions to OP. In order to ensure we have the senior level sign-off required, we need to complete the identified activities ahead of the OP deadlines. I will send out another email that addresses (1) updates to Plan and Agenda entries (abstracts, effects information, schedule), (2) Reg Plan narratives, (3) EO 12866 significance determinations, (4) EO 13771 regulatory cost accounting. This one addresses **\*only\*** the list of OCSPP actions to include with EPA's Regulatory PLAN.

Fall 2018 Reg Plan  
Agenda Data Call

**FY2018 Regulatory Plan List – All program office Reg Agenda submissions are due to RCS by COB TODAY!**

**Criteria for Regulatory Plan Inclusion**

- The NPRM or Final Rule reflects the Administrator's priorities, particularly with respect to regulatory reform
- Publication of the NPRM or Final Rule in the Federal Register is expected to occur between October 1, 2018 and September 30, 2019.
- The NPRM or Final Rule is (or will be) identified as a "significant regulatory action" under Executive Order 12866

- Contain narrative additional information about need, legal basis, alternatives, anticipated costs & benefits, and risks (see next deadline)

To help get you started, I've attached a data pull from ADP Tracker that presents actions that potentially meet the identified criteria for inclusion. A few notes about the data pull:

1. The projected publication date in ADP Tracker falls within the specified period.
2. Actions on this list are either confirmed to be significant under EO 12866 or still require an OMB decision about significance, so the list includes some items that OMB has not yet weighed in on but that *\*we\** think should be non-significant).
3. The list is only as accurate as ADP Tracker data is current. For example, the final rule milestones for the Dust-Lead Hazard Standards are all in "long-term" status and will need to be updated for OP to agree that the action should be included in the FY2019 Reg Plan.

Reg  
Plan\_FY2019\_Li...

As a reminder, Regulatory Plan action entries include more information than Regulatory Agenda entries, and we need to be prepared to PROMPTLY provide that information (i.e., approved by DAAs and submitted to OP by 7/13). I will provide more details in my next message.

Let me know if you have any questions. Thanks!

- Angela
